

Save Money With Forum EV Truck Lease Packages¹

Forum offers flexible truck lease + charging packages that make going electric easy and affordable for carriers.

Go Electric for Less Than Diesel

Where available, we stack rebates and incentives to offer carriers the lowest possible lease rate. By combining leases with our separate charging agreements, our goal is to offer a combined package that delivers a **lower cost per mile** than a comparable diesel truck.

Choose the Lease Option that Is Best for You:

① TRAC Lease

Best for carriers seeking the **lowest monthly payment** and a defined purchase option.

A **TRAC Lease** converts a large vehicle purchase into a predictable monthly operating expense while providing a pre-determined purchase option at lease end.

Key Benefits:

- + Tesla Semi leases as low as \$1,250/month
- + No mileage caps or overage fees
- + Defined purchase option at lease end

After Lease End:

Option 1: Purchase the truck at the pre-determined residual value

Option 2: Have Forum sell the truck and reconcile the final value according to the lease agreement

OR

② Operating Lease

Best for carriers that want **maximum flexibility** and no obligation to purchase.

An **Operating Lease** functions similarly to a traditional vehicle lease. Forum retains ownership of the truck, giving you flexibility to purchase the truck, continue leasing, or walk away at the end of the term.

Key Benefits:

- + Predictable monthly payments
- + Flexible end-of-term options

After Lease End:

Option 1: Purchase the truck at fair market value

Option 2: Extend the lease

Option 3: Return the truck with no purchase obligation

Lease Options: TRAC Lease vs. Operating Lease

Every Forum Lease Includes:

No Money Down

Little or no upfront capital required² & predictable monthly payments

Truck Charging

Charging subscription with access to reliable, convenient depots near key freight routes

Rebates & Incentives

Use of rebates and incentives to lower your lease payment

Off Balance Sheet

Truck stays off your balance sheet³
